GOVERNMENT HAS IT.

Sveaborg Fortress in Complete Control of Russian Authorities.

Helsinki, Aug. 3.—Sveaborg fortress is completely in the hands of the government. Prisoners were marched out and sent to Skatudden island, where they await trial.

A Socialistic red guard Thursday evening made a last effort to bring about a general strike. They marched in force to the power house of the street railroad and ordered the men to strike. Upon refusal the guard attempted to destroy the building. Police and communal guards were summoned and a fight followed, resulting in the killing of the assistant chief of police and several communal guards and a number of red guards. Cossacks were summoned and separated the combatants. The red guard consists for the greater part of the Finnish proletariat, while the communal guards are made up of the middle and wealthy classes and organized to maintain order and protect property. They are armed with rifles and are under almost military discipline. The government is handling the situation carefully, fearing the movement may spread throughout the country. Cossacks are used only in extreme cases and then disperse crowds with more gentleness than they do in Russia.

It has transpired that the sharp firing heard from Sveaborg between 4 and 5 o'clock Thursday morning came from infantry reinforcements dispatched there for the purpose of constructing pontoon bridges from island to island, in order to protect fortifications from the mutineers. The troops were supported by a cannonade from the fortress on Sandhamm island. The attempt was successful and the government flag was hoisted at noon, showing that Sveaborg fortress is in the hands of Loyalists. Some 2,000 reinforcements of troops arrived at Helsinki.

Telegraph lines were cut, severing connections with Viborg, and a small railroad bridge between here and Viborg blown up. The bridge was subsequently repaired.

Trains from St. Petersburg are arriving here after great delay. One of the railway bridges here has again been blown up with dynamite, but it was soon repaired.

Casualties at Sveaborg were many, but 500 is undoubtedly an exaggerated number.

Officers' wives showed unerring devotion as nurses. Wounded mutineers suffered considerably, as there were but ill provided with medical supplies.

CRIME PREVENTED.

Children at Philadelphia Being Operated Upon For This Purpose.

New York, Aug. 3.—A special to the Herald from Philadelphia says: Following the theories of the country's foremost physicians and the recent ruling of the juvenile courts the Pennsylvania Society to Protect Children From Cruelty, working in conjunction with Director Coplin of the bureau of health, has instituted the practice of performing operations upon the children given into his charge where medical opinion is that such a course is likely to prevent a criminal career. The first subjects were operated on Thursday at the infirmary of the society. In all seven children were put under the knife by a number of the city's most prominent surgeons. A number of other similar operations will take place soon.

Of 147 children examined 50 per cent were found to be suffering from imperfect refraction of the eyes. Glasses have been ordered for all of these.

COOK EXPIRED.

Wellington, Who Was Killed, Had Been Indicted by Grand Jury.

Memphis, Aug. 3.—W. J. Cook, one of the judges of the election, who was shot in a row at the polls Thursday, died Friday. J. G. Wellington, who was killed on the spot, was recently indicted by the grand jury charged with running a disorderly house on Marble street. B. F. Conn, shot in the heel, was not seriously injured. Wellington, it is claimed, demanded to remain in the judge's room during the count. This was refused and a battle began.

The Democratic primaries for congressman of the Tenth district show General George W. Gordon and J. W. Apperson to be the leading candidates. They will run it off Aug. 11.

MILLER DISMISSED.

His Former Suspension Brought About President's Open Shop Order.

Washington, Aug. 3.—W. A. Miller, assistant foreman in the government printing office, who was suspended by the public printer July 21 for insubordination and insolence, has been dismissed from the government service. Miller's former suspension in 1903 was the cause of President Roosevelt's order declaring the government printing office and all other offices where workmen are employed by the government to be open shops.

Second Arrest.

Antlers, I. T., Aug. 3.—A second arrest was made by Frisco detectives in connection with the wrecking of the Fryer Sunday in which the fireman was killed and engineer seriously wounded. Both men are in jail here. The prisoners were employed at a sawmill.

Mill Burns.

Lufkin, Tex., Aug. 3.—Mill of the Angelina County Lumber company, near here, burned early Friday. No stock was destroyed. The mill, which was valued at \$25,000, was insured for \$17,000. It will be rebuilt.

Average Condition of Cotton.

Washington, Aug. 3.—A statement issued at noon Friday by the crop estimating board of the department of agriculture shows the average condition of cotton July 25 to be 82.9.
